

Colgate Parish Council Risk Assess-Amended and Re Adopted 13th July 20

(12th June 2017(updated)Review due June 2018,reviwd 10th June 2019.)

“The greatest risk facing a local authority is not being able to deliver the activity or services expected of the Council.”

Risk assessment is a systematic general examination of working conditions, workplace activities and environmental factors that will enable the Parish Council to identify any and all potential risks inherent in the operations or practices. Based on a recorded assessment the Parish Council should then take all practical and necessary steps to reduce or eliminate the risks, insofar as is practically possible. Making sure that all Council members are made aware of the results of the risk assessment bi monthly at the full council meetings.

This document has been produced to enable the Parish Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise them. In conducting this exercise, the following risk assessment plan was generated which identifies the areas to be managed, what the risk may be and the risk mitigation.

This document will be reviewed annually in June-sept

Subject	Risk	Level of Risk	Management/control of risk	Actions/comments/	Responsibility
